BY REVIEW LEASED WIRE

NEW YORK, May 8.—The broad and active demand on the resumption of trading today had for its chief incentive the announcement that the government at Washington had decided to accept the submarine concessions contained in the recent German note. There were other favorable developments, including the government report on winter wheat that disclosed improved conditions over a western transportation lines and further copper advances.

In the early trading Mexicans were regular to heavy as a result of overnight advices from accounts on the border, recoveries in these issues later materially reduced losses. In fact Mexican copper was the strong feature in the final hour, closing with a small net gain. The Texas Company also improving substantially.

During mid-season rails became very active, notably the Pacifics, St. Paul, Atchison, New York Central and Reading. The inquiry for these stocks ceased almost as suddenly as it began, however, and little of their gain was retained.

United States Steel and other industrial issues including the war contract division, were less active and more irregular than usual. Bethlehem Steel closed at a net advance of five points after losing 9 points.

Total sales of stocks amounted to 15,000 shares. Bonds manifested increased firmness on the demand for railroad issues. Total sales, par value, \$2,690,000. United States bonds were unchanged on call.

### METALS MARKET

NEW YORK, May 8.—The metal market was quiet. Spot delivery East St. Louis 17 1/4 asked. Copper firm; electrolytic, nearby, nominal, August and later 28.50 to 30.00; bar silver 74 1/8.

### CHICAGO GRAINS

CHICAGO, May 8.—Selling wheat to some extent was based on well founded anticipation of government crop reports might contain a surprise turned the wheat market downward today after an early advance. Close was unsettled at a quarter a 3-8 cents net decline with May 1 1/4 and July 1 1/8.

Corn lost 1-2 to 3-4, oats 1-8 to 3-8 and provisions 2 1/2 to 10 cents. Contrary to generally accepted trade predictions, the government report indicated that a material improvement of the condition of winter wheat had taken place during April. It was in this respect that a forecast of the report was decidedly in error.

Ideal weather for planting had a bearish effect on corn. Provisions acted for the most part in harmony with the course of grain. Lower prices on hogs appeared to cut but little figure.

By L. J. Overlock  
BOSTON, May 8.—There was a little profit taking today. The market has had quite a sharp rally since last Friday and it is only natural to sur off a little. Would take advantage of any little set-back to buy the copper and rails. The specialties and pool stocks were bid up rather

briskly today. Look to see the market a little irregular until the foreign situation is clearer.

Some stories will bear repeating.  
Now, there's the story of the Million  
Dollar OWL.

Behind the OWL cigar stands a  
million dollars' worth of slowly-cur-  
ing leaf. This supply, selected when  
market conditions are favorable,  
makes sure that the cigar-maker gets  
the same grade of tobacco for every  
OWL.

You know that "green" leaf has little  
or no flavor. To make the leaf mellow, it  
must be thoroughly cured.

Curing requires an average of 18 months.  
During this 18 months, this non-productive  
supply of tobacco, always a million dollars  
in value and frequently more, lies idle in  
the OWL factories so that you can be sure  
of getting the same mild smoke in every  
OWL you buy.

A million dollars of good smoke in-  
surance! Did any other cigar manufac-  
turer ever take so much trouble and so  
much expense in guaranteeing satisfaction  
to his customers?

That is why the OWL never disappoints  
the men who smoke it.

## IN POLITICS

(Continued from Page Four)

To the tune of "Dixie," and later to  
half a dozen other musical selections  
furnished by a small band, delegates  
from various counties, headed by their  
chairman and waving county banners  
snake-danced about the convention  
hall before the opening of the after-  
noon session. The band, the cheering,  
the cheers, the atmosphere of sus-  
pense, all brought back to mind the  
famous old time convention, when a  
brass band and anvils were among the  
first requisites to successful business  
transaction.

"Arizona is due for a change," de-  
clared A. H. Gardner, chairman  
of the Cochise delegation. "Arizona has  
been under the Democratic party's con-  
trol since she became a state in 1912.

## A Fine Aid For Mother-to-be

We are all greatly indebted to those  
who tell their experiences. And among

the many things which  
we read about and  
are of immediate im-  
portance to the expect-  
ant mother, is a splen-  
did external remedy  
called "Mother's  
Friend." This is ap-  
plied over the mus-  
cles of the stomach. It  
is deeply penetrating in  
its influence. Mothers  
everywhere tell of its  
soothing effect, how it  
allays pains incident to  
stretching of cords,

ligaments and muscles. They tell of restful  
comfort, of calm, peaceful nights, an ab-  
sence of those distressing peculiarities, the pe-  
riod of expectancy, relief from morning  
sickness, no more of that apprehension with  
which so many young women's minds be-  
come burdened. It is a splendid help. Get  
a bottle of "Mother's Friend" from your  
nearest druggist. Ask your husband to get  
it for you. Then write to Bradfield Reg-  
ulator Co., 408 Lamar Bldg., Atlanta, Ga.  
for a very handsome and instructive book.  
It is filled with suggestive ideas of great  
help to all women interested in the subject  
of maternity. And best of all are some let-  
ters from mothers that are real inspirations.
